Professional Training on Smart and Green Logistics Scheme (PTSGLS) For Course Providers' Use

With a view to helping the logistics sector to nurture more professional talents and to encouraging in-service practitioners to equip themselves with up-to-date knowledge to support the industry in upgrading and transforming itself towards the direction of green and smart, the Government launched the Professional Training on Smart and Green Logistics Scheme (PTSGLS, the Scheme) on 8 January 2024 under the Maritime and Aviation Training Fund (MATF). The Scheme has been enhanced with effect from 4 October 2024 to, amongst others, include courses that operate on a self-financing basis with a view to providing more diversified course options to logistics industry practitioners.

Overview of the Scheme

Scope of the Scheme

- The Scheme covers training courses directly related to smart and green logistics and related technologies to be conducted in Hong Kong whose curriculum should include but may not be limited to:
 - a. latest professional, technical knowledge and practical skills in advanced logistics practices, such as those in relation to e-logistics, special cargo handling, digitalisation, blockchain, artificial intelligence, big data analytics, robotics and automation technology, cybersecurity, environmental, social and governance (ESG), etc.; or
 - b. other logistics-specific topics that can be identified in standards, manuals or guidelines established by professional bodies, trade associations or other relevant organisations in the logistics industry.
- The training courses could be conducted either online or through physical attendance in the form of, including but not limited to, short course, certification programme, seminar, webinar or online self-learning programme.
- Training courses should target individuals currently engaged in logistics-related industries and those who will join the industry in Hong Kong within four months after completion of the training courses.
